

**A gateway to Western Balkan**

**Ref. 20220201/M1**

**We stand in solidarity with the people of Ukraine**

**March 1, 2022, Prague,** Czech-BiH chamber of commerce in Prague condemns the unilateral act of war in Ukraine against freedom, democracy, and the rule of law.

The vision of an open Europe, which nurtures a culture of social progress through cooperation and knowledge sharing, has been shaken to the core by the Russian war.

In every war, innocent people suffer the most, and they need comfort, support, and hope. We hope that peace, optimism, and freedom will win, and that is why we are putting our entire focus on the people of Ukraine.

We support all individuals who continue their work, life, and visions in these difficult times. We share their hope for a better future, and we want to believe that the future of Ukraine and the world is much brighter than the present.

There are no winners in such battles and wars because humanity is lost. That is why we stand firmly behind every individual who is brave enough to oppose this.

CZBH Chamber of commerce supports all current and ongoing activities to avoid unnecessary escalation, protect civilians, women, elders, and minors, and safeguard overall security in Europe.
